Stopgap

Face to Face

It's not just for me
You should be well aware of the dream
I know it's temporary
We made it here next you go like a thiefYou got something you wanna say to me
So what's your story better get it straight
Don't waste my time with your apologies
You're afraid
It's an about-faceYou got something you wanna say to me
So what's your story better get it straight
Don't waste my time with your apologies
You're afraid
It's an about-faceI thought my lies ain't for me
It's more pathetic than your sympathy
There is nothing worse than a need
To be accepted to by your contemporariesYou got something you wanna say to me
So what's your story better get it straight
Don't waste my time with your apologies
You're afraid
It's an about-faceYou got something you wanna say to me
So what's your story better get it straight
Don't waste my time with your apologies
You're afraid
It's an about-faceNow you're the big shot you're walking tall
This is a stopgap you're gonna fall
You deserve what you get
There's no remorse regret
This is far from over yetIt's not just for me
You should be well aware of this dream
There is nothing worse than a need
To be accepted to by your contemporariesYou got something you wanna say to me
So what's your story better get it straight
Don't waste my time with your apologies
You're afraid
It's an about-faceYou got something you wanna say to me
So what's your story better get it straight
Don't waste my time with your apologies
You're afraid
It's an about-faceYou got something you wanna say to me
So what's your story better get it straight

Don't waste my time with your apologies
You're afraid
It's an about-faceYou got something you wanna say to me
So what's your story better get it straight
Don't waste my time with your apologies
You're afraid
It's an about-faceYou got something you wanna say to me
You got something you wanna say to me
