

Come and Save Me

Gloriana

The sky, it keeps on changing colors in the rain
Nothing ever seems to stay the same
But I, I found you tonight, surprise
I found all i needed in your eyes
Everyone keeps leaving but you stay
When I have you tonight
Let my heart go free

Hold me close
Now untill forever
I'll be unafraid
Hold me close
Give me back my reason to believe

Come and save me

Love
Nothing ever takes the place of love
Breaks through all the madness like a flood
You washed away my fears
And let my heart go free

Hold me close, now untill forever
I'll be unafraid
Hold me close, give me back my reason to believe
Come and save me

Hold me close, now untill forever
I'll be unafraid
Hold me close, give me back my reason to believe
Come and save me
Come and save me

Come and save me

I found you tonight
