Five Corporations

Fugazi

Moves so slowly
Grows so smoothly
Takes so neatly
It's as if they belong and they've been here all along
Grows so smoothly
Moves so slowly
Takes completely
It's as if they belong and they've been here all along
This one's ours let's take another
Check the math here check in ten years
Clusterfuck theory buy them up and shut them down
Then repeat in every town
Every town will be the same
This one's ours let's take another
Five corporations there's a pattern
