

# Surviving

## Powderfinger

I'll stand at your shoulder  
I'll keep you running right  
Keep you running right  
I'll fight in your corner  
I'll stay by your side  
I'll stay by your side  
There's no need now to worry  
Our love's still here tomorrow  
There ain't no use in crying  
For what's keeping us divided  
Baby, we're still trying, we're still trying  
We're too old to worry  
About who's wrong and who is right  
Is all so by and by  
People need a villain  
Someone to pay the price  
It keeps them satisfied  
There's no need now to worry  
I'll still be here tomorrow  
There ain't no use in crying  
For what's keeping us divided  
Baby, we're still trying, we're still trying  
Baby, we're still trying  
Baby, we're surviving
