Weatherman

Lars Brundin

Weatherman
Music and Lyrics by Lars Brundin/ Johannes Frykman

How would you like to come out in the rain
How would you like me to follow
How would you like to come out of your head

Never you mind what the wheaterman said
Never you mind what the wheaterman said

How would you like to come out in the wind
How would you like me to follow
How would you like to come back here instead

How would you like to come out in the fields
How would you like me to follow
How would you like to come back in to my bed

How would you like me to enter my dreams
How would you like me to follow
How would you like to make love in the bed

Never you mind what the wheaterman said
Never you mind what the wheaterman said
