

I Didn't Wake up This Morning

Tony Jackson

Just think, this time yesterday
I didn't even know your name
Till I spilled my coffee and you dropped your change
We sat there for hours just talking You said I need to be on my way
I'm so glad you gave me your number, now I'm just calling to say I didn't wake up this morning
Cause I didn't go to sleep last night
I've been tossing and turning my hearts burning I can't get you off of my mind Just stared at the ceiling
Feeling a feeling I never felt in my whole life
I didn't wake up this morning Cause I didn't go to sleep last night
So when can I see you again
It'll seem like forever till then
And I was kinda hoping we can be more than friends
Some things just come out of nowhere
Some things just can't be explained
I can't go one more night without knowing
Girl do you feel the same
I didn't wake up this morning
Cause I didn't go to sleep last night
I've been tossing and turning my heart's burning
I can't get you off of my mind
Just stared at the ceiling feeling a feeling
I never felt my whole life
I didn't wake up this morning
Cause I didn't go to sleep last night
So I'm wondering what you're doing
What you're doing for the rest of your life
I didn't wake up this morning
Cause I didn't go to sleep last night
I didn't wake up this morning
Cause I didn't go to sleep last night
