

Gather & Give

Finger Eleven

I would give anything that's worth giving
I would say any line that'll try to get you near to me
But you've never been want to love me and lied to
And this unofficial site just makes me disappear from you So I'm gathering up the truth and I'm giving it all to
you
If it's the last thing I do 'cause I won't be free 'til I give it all to you Heavy as it seems, all I'm saying
You will have to drag it out, can kill it, screaming
When it finally comes I hope you hear me
There whatever trickles down becomes whatever sets us free So I'm gathering up the truth and I'm giving it all
to you
If it's the last thing I do 'cause I won't be free 'til I give it all to you
Yeah, I'm gathering up the truth and I'm giving it all to you
It's nothing more I can do 'cause I won't be free It's not as easy as you make it sound
Not even when I try to sound it out
I'll try my best to make it come around
But it's not that easy for me, it's not that easy for me But I'm gathering up the truth and I'm giving it all to you
If it's the last thing I do 'cause I won't be free 'til I give it all to you
Yeah, I'm gathering up the truth and I'm giving it all to you
It's nothing more I can do 'cause I won't be free 'til I give it all to you So I'm gathering up the truth and I'm
giving it all to you
If it's the last thing I do 'cause I won't be free 'til I give it
All to you, all to you, all to you
Because I won't be free 'til I give it all to you, all to you
