Take My Time

The Early Mays

I will take my time, I will write to you slowly
I will clear my words, of the stain and tarnish
Cause it's you runs round, 'till it gets to logouts
And I cant see clear, for the fall before us

(Chorus)
What if I love you more, what if you held me tightly
Then we cold both be sure, that we would take things lightly

Sometimes steps I take, seem to freeze like water
And my slowing guide, makes the road much harder
But I can change my face, I can cure my longing
And by my own sweet grace, see the bright day dawning

(Chorus)
What if I love you more, what if you held me tightly
Then we cold both be sure, that we would take things lightly

I will take my time, I will take my time
