

# Heartache Every Moment

HIM

From lashes to ashes and from lust to dust  
In your sweetest torment, I'm lost  
And no Heaven can help us  
Ready, willing and able to lose it all  
For a kiss so fatal and so warm Oh, it's heartache every moment  
From the start till the end  
It's heartache every moment  
With you Deeper into our Heavenly suffering  
Our fragile souls are falling  
It's heartache every moment  
Baby with you And we sense the danger  
But don't wanna give up  
There's no smile of an angel  
Without the wrath of God Oh, it's heartache every moment  
From the start till the end  
It's heartache every moment  
With you Deeper into our Heavenly suffering  
Our fragile souls are falling  
It's heartache every moment  
Baby with you, my darling with you From lashes to ashes and from lust to dust  
In your sweetest torment, I'm lost  
And we sense the danger  
But don't wanna give up Oh, it's heartache every moment  
From the start till the end  
It's heartache every moment  
With you Deeper into our Heavenly suffering  
Our fragile souls are falling  
It's heartache every moment  
Baby with you, that's right
