Out Alive

Joe Robinson

I've been up and running around
My minds getting hazy
Life's been taking me up and down, and
Spinning me round till I go crazyLately I've been stepping on toes
And jumping out of windows, and
Hurting pretty much everyone that I know
And don't I know its crazy, 'causeHours pass
And days go by
I'm trying to live too fast
Afraid to die, butNobody
Nobody
Nobody
In this crazy life
Is getting out alivePedal pressing down to the metal, 24/7
I know I make a lot of mistakes
Just so I can forget them
It's crazyOh but if I can be flying
Fast enough without a breath
I'll never have to think or look or feel or regret
It's crazy, 'causeHours pass
And days go by, andNobody
Nobody
Nobody
In this crazy life
Is getting out aliveInstrumentalI've gotta slow it down
Try and enjoy this ride
Cause I'll only get one chance
In this crazy life
And when it's over, it's overNobody
Nobody
Nobody
In this crazy life
Is getting out aliveWe're not gonna make it
We're not gonna make it
We're not gonna make itOut alive
Out alive
Out alive
