I Need You

By the Tree

Not sure why I feel this way
Guess I'll carry on another day
I'm following your every move
My discontent always proves
That you are there when I need you
I'm holding on to youThere are so many ways
Every day
I'm learning more
To trust youI need you
More than anything
I need you
Here next to me
I need you
To be you
I need you
Wash away my pain(sin)
I need you
Fill me once again
I need you
To be youLeavin' desert life behind
Drivin' right to the city limits sign
I'll fix my eyes on youThere are so many ways
Every day
Show more
Trust in youI need you(come on leave the desert life behind)
I need you(come on drive right to the city line)
I need you(come on leave the desert life behind)
To be you(to you, I'll be true)
