

# Stone Love

## Pepper

Stone love with the number one sound  
A four, four in the background, a platinum, selector of the time  
Don't watch my size in this hall  
While my back's against the wall  
Take a ride, competition, take a ride  
Pull it operator, drop the other side  
Thought it was over, so far from done  
As they dance into the sun Some bring up new style holding trophy cups  
Rory select while my speakers erupt  
The sound's sweeter with an echo chamber  
Don't you know that they are the danger  
Three bottles of cristal and it's agreed  
The best would only come from the Don Wesley  
Close my eyes when I take a ride Fold the bag in a yard style  
Don't worry 'bout that you see, it's all natural  
Police chasing this bandilero  
Running down the road with my thick payroll  
One stop was my music shop  
Where I heard this guitar screamin' Some bring up new style holding trophy cups  
Rory select while my speakers erupt  
The sound's sweeter with an echo chamber  
Don't you know that they are the danger  
Three bottles of cristal and it's agreed  
The best would only come from the Don Wesley  
Close my eyes and take a ride
