

Newport Living

Cute Is What We Aim For

Everyone's a let down
It just depends on how far down they can go
In every circle of friends there's a whore
The one who flirts and does a little more
But who's to say this is a social scene anyway
And everybody wants to explore the new girl
Cut up in her own hard liquor world
But liquor doesn't exist in my world
But liquor doesn't exist in my world
But if you lie, you don't deserve to have friends
If you lie, you don't deserve to have them
If you lie, you don't deserve to have friends
If you lie
You are a sell out
But you couldn't even do that right
So your price tag has been slashed
And now you're chilling on a half priced clearance rack
You are a sell out
But you couldn't even do that right
So your price tag has been slashed
And now you're chilling on a half priced clearance rack
The social scene where she gets her fix
Has been broken since '86
And just look at that social clique
Do you really wanna be a part of it?
Let's not let us forget where she gets the habit
She gets the pills from her skills
And she gets the skills from the pills
And just look at that clique
Do you really wanna be the star of it?
You are a sell out
But you couldn't even do that right
So your price tag has been slashed
And now you're chilling on a half priced clearance rack
You are a sell out
But you couldn't even do that right
So your price tag has been slashed
And now you're chilling on a half priced clearance rack
If you lie, you don't deserve to have friends
If you lie, you don't deserve to have them
If you lie, you don't deserve to have friends
If you lie
You are a sell out
But you couldn't even do that right
So your price tag has been slashed
And now you're chilling on a half priced clearance rack
You are a sell out
But you couldn't even do that right
So your price tag has been slashed
And now you're chilling on a half priced clearance rack
