

Daydreaming

Massive Attack

I quietly observe standing in my space
Daydreaming
I quietly observe standing in my space
Daydreaming Way that we say 'em in style that we raid 'em in
Massive attack we keep it strong just like a vitamin
Going for the positive wiping out the negative songs
'Cause brother it's relative
The [unverified] is pickup all the lyrics on the dance floor
To raise your spirit level 'cause it demands more Attitude is cool degrees below zero
Up against the wall behaving like De Niro
Tricky's performing taking his photo
Make him stand with a tan touch it like cocoa
Smooth keep it moving at the back now
Free as the needle that's moving through the track now Hands keep the drummer's beats we need new sticks
Dance around the vibes like acoustics
No drugs or pharmaceuticals for the body ain't suitable
Stick with liquid me and trick we drop
The paper which you use my tongue to lick with Trouble and strife ain't no sunshine in my life
Wise guys get protection when they carry a knife
They shouldn't have been born they're making me yawn
But I just take it easy it's a Sunday morning So you come [unverified]
Together we'll grow forever watch my ak rig go
Because my ak rig goes boom boom
My ak rig goes boom Yeah, rhymin' the jam and uh we got the stamina
'Cause you never know it's like we don't give a damn and uh
And it's [unverified] to keep your distance
Resist and the posse gets the pressure of this dance
The cool breeze that you welcome in the heat
You don't see it but you feel it when it's blowing on the street If I was a rich man, da, da, dada
I quietly observe standing in my space
It's the devious days they call the rat race
It's a concrete jungle, evil in the town
Weebles, wobble, occasional squabble
But we're happy when the bomb drops down Don't make sound
'Cause the dance floor's a desert
And the dancers are parched
Do a rain dance and you brace through a marsh My heavy my brother get lighter than helium
Float above the world to break the tedium
Living in my headphones soul is what I say to 'em

The surreal boom of the budokan stadium
Well, I'm floating on air when I'm daydreaming
I quietly observe standing in my space
Well, I'm tricky kid don't deal with sadness
Can't be with the one I love, I love the one that I miss
I'm very down to earth but brain sits on top floor
Don't need another lover just need, I'm insecure
The weather is a changin' the storms be shakin'
The love that you take is equal to the love you're makin'
Here comes the sun little darlin' here comes the sun
It's alright Yes, tricky kid I check my situation
Naggy this maggy that maggy means inflation
Hip-hop you don't stop 'cause I'm not sloppy
I like the beat so we need another copy
We're natives of the massive territory and I'm proud
Getting peaceful in the desert that the glory and the crowd
The problem ain't a different kind of skin tricks
I love my neighbor and I [unverified] the Olympics
See you a hooligan you try to play the fool again
Caught you in the lost and found
When your posse weren't around
No crowd
So you're going for you tool again
Daydreaming
I quietly observe standing in my space
Daydreaming
Well, I'm floating on air when I'm daydreaming
