Letters

Wake Owl

I found all the letters that you wrote to yourself
About how you're doing and to stay strong
Before you get to home I will tell them all your secrets
About the sorrows about the way that it endedSo let me understand that it's just a game in our hands
We never learned to win so we're sorryAll night spoke of our dreams
The way life gets turned upside down
It's never quite what it seems[the most delicious guitar riff ever]The children are free and the devil is in me
Well I turned over freedom into hero
The hero he will wait, he will die in your name
And in my mind there's no [inaudible]So let me understand that it's just a game in our heads
We never learned to win so we're sorryAnd all night spoke of our dreams
The way life gets turned upside down
It's never quite what it seems
All night spoke of our dreams
