Tattooed (feat. Monicalaire)

Drew Allen

Oh yeah, you making me feel a way-yeah
Oo, oo, oo, oo, oo!
You get the best of me every time
It's like I stay on the losing side
Of all of your love and all of my strength yeah
Oh, yeah-uh
You light me up like a firefly
The way you make me feel I just can't deny
And I
I hope you can say that you feel the same yeah

Chorus
Oh you know this is real
When your around my heart it can't keep still yeah
Oh cuz I more than think about yuh
more than think about you at times
You stay on my mind
And as the world turns everything changes
But it's you and me girl we stay the same
A piece of you a piece of you has been stained
And you're only to blame, yeah
Like you've been tattooed on my brain

Boy you make me feel overjoyed
When I see you coming to me
Feel love running through me I swear
You keep me so elevated
Like I'm intoxicated, just at the thought of you
Why can't I turn off these butterflies
Got me hypnotized
You just don't know what you do to me
And I can't control myself, I don't need no one else
Cuz everything I want is in you

Chorus No. 2
Oh you know this is real
When you're around my heart it can't keep still
Oh cuz I more than think about yuh
More than think about you at times

You stay on my mind
And as the world turns eveything changes
But it's you and me boy we stay the same
A piece of you, a piece of has been stained
And you're only to blame, yeah
Like you've been tattooed on my brain

Oooooo....
Oh girl I hear what you're saying
Boy don't you think that I'm playing
This ain't no game I'm not faking
And that's how I know that this is true
The way you make me feel inside
Inside!

Chorus No. 3
Oh you know this is real
When you're around my heart it can't keep still
Oh cuz I more than think about yuh
More than think about you at times
You stay on my mind
And as the world turns everything changes yeah
But it's you and me we stay the same
A piece of you, a piece of you has been stained
And you're only to blame yeahh
Like you've been tattooed on my brain
