Rot

Othello

Everything I need is not really what I want
I wanna, I wanna, I wanna, I wanna
I wanna really, really, really wanna see you die
Everything I want, I cant have if left up to meUnaffected by all the bullshit you cause
Unprotected, naked, so we see your flaws
Violated, you must think that we don't see this
Disrespected, just remember it's our ass you kissRot
Rot
You don't like me, I hope you
RotUnjustified, you keep fucking with us, we are
Hostile inside, we consider you a joke
Hate magnified, soon you'll think that we don't see this
Strip down your pride, soon you'll feel the force of all of usRot
Rot
You don't like me, I hope you
RotI don't like you
Can't you see this?
Why won't you
Leave me alone?
