

# I've Seen

## Outlandish

I wish you were here  
Here next to me  
Been missing you so  
So desperately  
But lately I feel  
Like you feel  
And I see what you see  
How I'm missing you  
What happened to the ummah?  
Once known so well  
I wish you were here  
Here next to me  
Been missing you so  
So desperately  
But lately I feel  
Like you feel  
And I see what you see  
How I'm missing you  
What happened to the ummah?  
Once known so well  
Greatness was known  
But now can you tell?  
Used to inspire others  
With our way of thinking and speech  
People came from afar  
Just to hear us teach  
Yo, what happened to the ummah?  
Once known so well  
Greatness was known  
But now can you tell?  
Mosques are empty  
Refrigerators are stocked  
We lost our deen, we feel secure  
?Cause our mansions are locked  
In my teen years  
Salah wasn't really that tight  
Now I gotta pray  
Each one of them twice  
What happened to the ummah?

Once known so well  
Greatness was known  
But now can you tell?  
Brother, we prefer  
Light skinned women  
While righteously maintaining  
Our deen against racism  
What happened to the ummah?

Once known so well  
Greatness was known  
But now can you tell?  
I wish you were here  
Here next to me  
Been missing you so  
So desperately  
But lately I feel  
Like you feel  
And I see what you see  
How I'm missing you  
What happened to the ummah?

Once known so well  
Greatness was known  
But now can you tell?  
Kids in Africa are starving  
Can't afford to cry  
I'll pay interest for a car

I can't afford to buy  
What happened to the ummah?  
Once known so well  
Greatness was known  
But now can you tell?  
We used to smile at each other  
With faces full of light  
Now we frown at each other  
We bicker and we fight  
Pops in the mosque praying  
Kids in the streets hating  
Kids on the corner selling  
Pops in the mosque preachin?  
What happened to the ummah?

Once known so well  
Greatness was known  
But now can you tell?  
The Quran has left out hearts stranded

Hanging on out walls, 6232 verses, so strong  
9 out of 10 of us can?t even read or write  
1924 feels distant like way before Christ  
I wish you were here  
Here next to me  
Been missing you so  
So desperately  
But lately I feel  
Like you feel  
And I see what you see  
How I?m missing you  
Que le pas
