Wake And Be Fine

Okkervil River

Someone said to me
I'm coming to your dream
And speaking to you
I already knewI found her in an attic
Where dramatically
She leaned into to me
She whispered these linesWake and be fine
You still got time
To wake and be fineGraces me with more
Embraces in the streets
Say help me to stranger
Grab on to meCarrying their years around
it's all been chasing down as we rot
Here at the same timeCan we wake and be fine
We still got time
To wake and be fineFeelings on the creek
The killers in the crowd
I'm coming apart
A child in houseLovers in the sheets
Dreaming lovers
Sweetly turning asleep
Along the same beatsEverybody's crashing
The world is calling around
The cupboard and things
The cat couldn't sleepSomeone said to me
It's just a dream
Why don't you wake up and you'll see
it's fineAn the miles racing over
endless fields of snow
You've already heard,
You already knowRescue car finally
lost their heart
And then they Shattered their bones
Died all aloneShips on broken beach
Pirates sails for water
Hot afternoons
Goodbye and good newsDreams above ahead
Clouds are hard to crash
Loudly and so

Rocks and go SurviveWake and be fine
You've still got time
To wake and be fine
You can be fine
