

# Drunk In Love

Lil Wayne ft. Christina Milian

One more time you will catch up in  
You become old and die from it  
Hold my breath and think  
I can make it alone  
This is a true test of my faith  
We found the promises of grace  
But with vanity  
I can make it alone  
Get out of my little world  
You've got no right to stay  
Get out of my little world  
You've got no right to stay  
One more time I will loose my nerve  
And drop my personal life  
These changes wont change my mind again  
You plead with innocence and grief  
Just know this problem isn't me  
Only ask this once

Can't I make it alone  
Get out of my little world  
You've got no right to stay  
Get out of my little world  
You've got no right to stay  
No face is on my god  
But true believers call  
No face is on my god  
But true believers call  
Get out of my little world  
You've got no right to stay  
Get out of my little world  
You've got no right to stay  
I'm starting to change me little world  
You've got no right to stay  
Get out of my little world  
You've got no right to stay
