

No Well On Earth

[Perry Como](#)

No summer cloud is white enough to match
The color of her hair
No span of time is long enough to ever end
Her tender care And since Im speaking of my mothers love
Please let me tell you, Sir
No well on earth is deep enough to drown
The love I hold for her And since Im speaking of my mothers love
Please let me tell you, Sir
No well on earth is deep enough to drown
The love I hold for her
