Cookie Jar

Massari

All up in the cookie jar, the cookie jar
She got that SOS for score
Pushing from a distance, distance
Said she need a little love
Wanna show me all her secrets
I know she need a place
So now she's all up in the candy shop
Hand up in the cookie jar
Lips are on the lollipop
Chocolate covered cherry strum
Berries in the whip cream
Dripping on the bed sheets
Eat it up like ice cream
I got a body saying, I got my hands up
All up in the cookie jar, the cookie jar
Treat it like a rock star, the cookie jar
All up in the cookie jar
Treat it like a rock star
All up in the cookie jar
And now I gotta ride a breath
That can feel a body shaking
Shaking, cookie jar
The way she's calling up my name
I can tell she wasn't peeking
And now she had to switch us here
Pulling up the hand cuffs
Like a lady cup she said
Better get your hands up
Wanna bring me downtown
She's gonna take me for a ride

Open up the backdoor
Telling me to get inside
I got a body saying, I got my hands up
All up in the cookie jar, the cookie jar
All up in the cookie jar
Treat it like a rock star
The cookie jar, the cookie jar
All up in the cookie jar

Treat it like a rock star
She wanna take it back
So she keep saying rewind
I'm a play it back
'Cause you know that she's so fly
I wanna bring it back
So she keep saying rewind
I'm a play it back
'Cause you know that she's so fly
I got a body saying
And now I can say it
And now we both say it
I got my hands up, all up in the cookie jar
The cookie jar, all up in the cookie jar
Treat it like a rock star, the cookie jar
The cookie jar, all up in the cookie jar
Treat it like a rock star
All up in the cookie jar, the cookie jar
All up in the cookie jar
Treat it like a rock star
The cookie jar, all up in the cookie jar
Treat it like a rock star
