

# Somewhere Else

**Killian Mansfield, Bar Scott, Amy Helm, Dorraine S**

I used to look for you out in the daylight  
I took highways and side streets and back lanes  
Slept under open skies  
Life could be cruel  
Life could be sweet if I want it to be  
This town that I once called home  
I just can't hold on to  
It's got strip malls and bus stops and people  
I never really talk to  
She said, ?Life could be sweet  
But life is so cruel 'cause I let it be?  
Everybody out here  
They wanna live somewhere else

I wish I could find a place  
And stay there by myself  
Bit by bit I swear I think I'm losing  
All this city's confidence  
Everybody out here  
They wanna live somewhere else  
I wish I could find a place  
Stay there by myself  
Bit by bit I swear I think I'm losing  
All this city's confidence  
I swear I've lost  
All this city's confidence
