Natural Born Chillers

If you existed i would love you
Its my last dream close again
Ripples in you liquid soul
One day this will all cave outTake it all from me
We'll never be free
Bring it to me
And spit me out for goodyeahIf you could listen i would bore you
Its my last dream close again
Crippled in you icy soul
One day this will all collapseTake it all from me
We'll never be free
Bring it to me
And spit me out for good
