

# Summer Night (feat. KÃ©do Rebelle)

## Erlandsson

We got that  
fire warm  
and the stars are out tonight  
all i need is  
you and i  
You're the one  
i adore and with you  
by my side  
we are free in paradise

When you kiss me  
i feel like paradise  
it may be the coldest  
outside but  
when you touch me its like a  
summer night  
it may be the coldest outside  
yeah!

We got that  
fire warm  
and the stars are out tonight  
all i need is  
you and i  
You're the one  
i adore and with you  
by my side  
we are free in paradise

We got that  
fire warm  
and the stars are out tonight  
all i need is  
you and i  
You're the one  
i adore and with you  
by my side  
we are free in paradise

When you kiss me

i feel like paradise  
it may be the coldest  
outside but  
when you touch me its like a  
summer night  
it may be the coldest outside  
yeah!

### Summer Night

When you touch me its like a  
summer night  
it may be the coldest outside  
yeah!
