End of My Journey

John Dreamer

I am the very model of a scientist salarian
I've studied species turian,asari and bataian
I'm quite good at genetics as a subset of biology
Because i am a expert which i know is a tautology
My xenoscience studies range from urban to agrarian
I am the very model of scientist salarian

By: john dreamer

sorry i don't have all the lyrics but here is the start of the song <3
