

# State of Mind

## Fish

I don't trust the government  
I don't trust alternatives  
It's not that I'm paranoid  
It's just that's the way it is  
Everyday I hear a little scream inside  
Everyday I find it's gettin' louder  
I just want to reach out and touch someone  
'Cause I find, I need a friend in this dark hour  
We the people are gettin' tired of your lies  
We the people now believe that it's time  
We're demanding our rights to the answers  
We'll elect a president to a state of mind  
I trust in conspiracies  
In the power of the military  
In this wilderness of mirrors here  
Not even my speech is free  
Everyday I hear a little scream inside  
Everyday I find it's gettin' louder  
I just want to reach out and touch someone  
'Cause I find I need a friend in this dark hour  
We the people want it straight for a change  
'Cause we the people are gettin' out of your games  
If you insult us with cheap propaganda  
We'll elect a president to a state of mind  
Everyday I hear a little scream inside  
Everyday I find it's gettin' louder  
I just want to reach out and touch someone  
'Cause I find we need a friend in this dark hour  
When we the people have our backs to the wall  
Do we the people then assume control?  
When it's too late to stop our own execution  
When we're faced with the final solution  
You can't elect a dream revolution  
When you've a bullet in the back of your mind  
It's just a state of mind  
I hear a little scream inside  
It's gettin' loud, it's gettin' loud, it's gettin' loud  
(State of mind)
