Sun Hits the Sky

Supergrass

I know a place where the sun hits the sky
Everything changes and blows out the night
Everyone knows why my tongue can't be tied
'Cause I want to live where the sun meets the skyI am a doctor, I'll be your doctor
I'm on my way, you won't come down today
Live for the right things, be with the right ones
Or they'll hold you down, they'll turn your world aroundWell, I just don't know why the sun hits the sky
Everyone changed as they turned out the light
Livin' is easy with time on my side
'Cause I want to live where the sun meets the skyI am a doctor, I'll be your doctor
I'm on my way, and you won't come down today
Live for the right things, be with the right ones
Or they'll hold you down, they'll turn your world aroundI am a doctor, I'll be your doctor
I'm on my way, and you won't come down today
Live for the right things, be with the right ones
Or they'll hold you down, they'll turn your world around
