Beautiful Mistake

The New Amsterdams

This scene is a hard sell
Patience is underwhelming
Besides you don't want to sleep up late
Midnight on a dirt road
Breathe broken manifold
Time is part of my historyLong days full of bad notes translates to a bad joke
This will be my legacy one day
If I don't have a life to show, put this on my tombstone
Dialer's almost dead, I've gotta let you go
Hang my head next to the phone
Seems so long agoLooking back on a long night
Sounds bad in the harsh light
At least it's with a document
Of what we were simpler thanI see clearly now, never will escape
Once we took the time to make a beautiful mistake
Baby, I'll take this all forever
Tonight I'll see with clarity right where we belong
Never would go wrong
