

Get Up & Get Out

Iggy Pop

I'm wondering if fellas you've heard the news
These girls are tired of being abused
I saw it all in a dream last night
They'll be having this town if you don't treat 'em right
They'll get up
Get up and get out
I wonder buster if you've heard the word
My little baby's gonna give you the bird
You can check this information on the radio show
Digging that chick little Eva singing 'Locomotion'
She's the kind of girl who wants to know
Your deepest secret world
I'm wondering fellas if you've heard the news
The chicks are sick and tired of being abused
Now I saw all this on the wide screen
You know that chick Bette Davis split right out of the scene
She got up, she got up
Get up and get out
She got up, she got up
Got up and got out
She's the kind of girl who wants to know
Your deepest secret world
