

# The Chorus Girl

Steven Page

On top for forever  
A fantasy, oh no, never  
Wait 'til you hear the Chorus GirlA snowdrop with sunstroke  
A love song to make you choke  
Wait 'til you hear the Chorus GirlThere'll be no waiting limos, no no  
No cocaine and discos, no no  
I gave that all up  
For the Chorus GirlLook out of the window  
The people move down below  
Each one is in love  
With the Chorus GirlYou've tried to ignore her  
Derided those who adore her  
But soon you'll come round  
To the Chorus GirlThe poor become wealthy  
The sick become healthy  
But don't crucify  
The Chorus GirlAt night all alone  
With my microphone  
I never come close  
To the Chorus GirlI'm waiting for you now  
There's nothing to do now  
But save your breath  
For the Chorus Girl (x2)
