

# Constant

**Francesca Battistelli**

I'm just a little bit afraid of where I'm going  
And it feels like a hurricane is blowing over  
Though I can't find the ground below  
I've lived enough to know, I've lived enough to know  
You're my constant in every moment, constant  
You've never failed me all my life  
You have never left my side  
You are my constant  
Okay I really don't like change, but I can't stop it  
I'm moving forward anyway with a promise  
You are the anchor for my soul  
That's all I need to know, that's all I need to know  
You're my constant in every moment, constant  
You've never failed me all my life  
You have never left my side  
You are my constant  
Before I was a thought on Earth  
You knew me then and You gave me words  
When all of this is said and done  
You will be there when I'm standing up  
You're my constant in every moment, constant  
You've never failed me all my life  
You have never left my side  
You are my constant, my constant  
You've never failed me all my life  
You have never left my side  
You are my constant
