Why

Rich Kids on LSD

They seem to be in a state identical to that curious 20th century earth disease called hard drug abuse.

I had to get high,
Didn't matter how at the time.
Dirty needles,
Gave me a disease.
Yellow eyes, yellow skin,
My liver bleeds!
But I don't need it anymore,
And why I ever did before?
Why? Why?
All my insecurities.
An escape that led to this disease.
Addiction is something I don't need!
I had to get high,
Didn't matter how at the time.
Dirty needles,
Gave me a disease.
Yellow eyes, yellow skin,
My liver bleeds!
But I don't need it anymore,
And why I ever did before?
Why? Why?
All my insecurities.
An escape that led to this disease.
Addiction is something I don't need!
But I don't need it anymore,
And why I ever did before?
Why? Why?
Why? Why? Why? Why?
All my insecurities.
An escape that led to this disease.
Addiction is something I don't need!
As a Vulcan, I find the need for hard drugs to be totally illogical
