Decorate

Between Borders

So you decided to see me out of the blue
Should I let you come over
I think youre doing fine
That girl in your arms does she know where you come fromAlmost made me move out of town
You dont want me to be around
But I stayed anyway
Just in caseFinding reasons to hate you more than before
Like how you said you would call
but never at all
Got rid of your number that I know by heartYou left your things at my place
As if I have all the space
But you know I dont mindJust come back when you think its timeIm all black and white inside
Monotonous from left to right
I decorate my house with things you love
Just in case you show up
In case you show up
