White as Snow

Twerps

I've walked with the kings and I've marched to the pounding drums
Then you came [2x]
You asked me to change but like a fool I refused
And walked away
Oh, oh
It's not like you would know, would you?
You were white as snow
But still you plead, still you plead guilty

They took my crown as I hung my head and tied the noose
Around my neck
They tied me up and left me for dead please, cut me loose
It's not like you would know, would you?
You were white as snow
But still you plead, still you plead guilty
It's not like you would know, would you?
You were white as snow
You were white as snow
You were white as snow
