

Glory to You

[Aaron Shust](#)

Great God of might, great God of wonders
Giver of life, giver of grace
Creator of everything before us
You had me in mind before the stars were in place Your love surpasses all by far
We're praising You for all You are The reason we're here and the reason we sing
Is to thank You, oh God and give praise to the King
We lift up our hands and we lift up our eyes and sing
You are holy You are holy Father of love, Father of mercy
What have I done that You would think about me?
You've taken my shame, You've taken my sorrow
Replaced them with life and life abundantly Your love surpasses all by far
We're praising You for all You are The reason we're here and the reason we sing
Is to thank You, oh God and give praise to the King
We lift up our hands and we lift up our eyes and sing
You are holy The reason we're here and the reason we sing
Is to thank you, oh God and give praise to the King
We lift up our hands and we lift up our minds
And we pray that all we do would bring glory to You You can see inside my heart
You can see inside my mind
So strip away the things
That leave me deaf and blind The reason we're here and the reason we sing
Is to thank You, oh God and give praise to the King
We lift up our hands and we lift up our eyes and sing
You are holy The reason we're here and the reason we sing
Is to thank you, oh God and give praise to the King
We lift up our hands and we lift up our minds
And we pray that all we do would bring glory to You Would bring glory to You
You are holy
