

Louise

NOFX

She gotta silicone cock sticking in her ass and one in her cunt
A butterfly vibrator strapped tight to her clit
But who's got the remote control
That would belong to Louise
She's got a new pet a real vaginal tease
You know that mommy's little is not gonna do
As she please
If she don't want to get a spankin
She like to sing like a six year old brat
Mommy discipline me cause you know I've been bad
Start with cat then she'll move to a crop
Neither one is willing to stop
She knows that girls just wanna have fun
With four piercing on each side of her libia
A little luggage lock connecting each one
Prevents her girl from going astray
Slut you think you've seen your master mean
You better lick my puss and asshole clean
Treat my clit like bubblegum
Bitch make me come
It's time for bed she'll secure her head
Between her thighs for a thorough night suck
Along with this she'll be drinking her piss
So Louise don't have to get up
Two goodnesses in love
One resides below one reigns from above
One adorns cuffs while one covets keys
The purgatorial touch of Louise
