                             What's up?Shout
                                  (Ooh)
                    Same damn time every hurt or two
              Something can happen to put me in your mood
                     Keep it inside till I turn dark blue
                    Trash everything I ever gave to you
                Brought it on the front of your lexus coupe
                Didn't want to leave you with a lame excuse
                      Sex so good turns love to abuse
When you wanna leave love's got you in a nooseIt's not just when I'm in bed
                       Sometimes I'm so frustrated
                          I keep it all in my head
                      Till I just can't take it no more
                        It's not just when I get mad
                      Sometimes it's 'cuz I'm so glad
                         That you are near me now
                       I just have to get it outShout

(Hmm)
```

You gotta let me get it out

(Hmm)

You gotta let it go away

(Hmm)

Don't wanna spend another day

(Hmm)

Unless I feel like you make me

Shout!

You gotta let me get it out

(Hmm)

The feeling won't go away

(Hmm)

Don't wanna spend another day

(Hmm)

Unless I feel like you make me

Shout!Found somethin' in your pocket

And I don't know why?

I didn't say nothing' just sat and cried

Got me twisted all out inside

Not too long before the next ride

Over and over again

Instead of lettin' out I always let it in

This is where the confusion begins

'Cuz if it don't make me you don't winIt's not just when I'm in bed

Sometimes it's so frustratin'

I keep it all in my head

Till I just can't take it no more

It's not just when I get mad

Sometimes it's 'cuz I'm so glad

That you are near me now

I just have to get it outShout

(Aaa)

(Hmm)

You gotta let me get it out

(Oh yeah)

(Hmm)

You gotta let it go away

(Hmm)

Don't wanna spend another day

(Hmm)

Unless I feel like you make me

(Hmm)

Don't wanna spend another day

(Hmm)

Unless I feel like you make me

ShoutBaby just tell me what you wanna do

I can't help bein' in love with you

'Cuz sometimes I need you to turn me out

'Cuz that's what lovin' is all about

(Shout)

Baby just tell me what you wanna do

I can't help bein' in love with you

'Cuz sometimes I need you to turn me out

'Cuz that's what lovin' is all about

(Yeah)

(Shout)Check it

I knew that it was only time

Before my rhymes

Would dig into my mind

And get crazy out of line

I do my best

To never disrespect

My girls from TLC

All my friends don't let me

Speak my love and peace

It's all about

In this world with a doubt

Is you down for the count

Do your hoes still amount

To the price that we pay

To remain up in this crucial game

Call it a test

A game of chess

Let's play

Me and you one on one

(Hmm)

Breakin the ice

Till the water runs

(Hmm)

Down my face like a chase

Now do you hear the guns

(Hmm)

Here I come and won't quit Until the job is done

(Hmm)

Quiet storms will inform you

That I've just begun

(Hmm)

Tippin' the spot till it's hot

If you want what I got

(Hmm)

See me down to the dot dot com

And keep it comin' with your best shot

(Hmm)

If you're short I care alot

And let's notShout

(Hmm)

You gotta let me get it out

(You gotta let me get it out, yeah)

(Hmm)
