True Believer

Superdrag

Ever since I
Take downs to keep me dreaming, I get down about redeeming this lie
Ever since that night
I replay transfiguration of a dead black aberration and cryWhatever helps you break that fall
whatever makes you safe at all
I need healing
I need grace to get me feelingWhatever helps you break that fall
Whatever makes you safe at all
I need healing
I need grace to get me feelingEver since I
Fell prey to desperation, I take pains to keep sensation 'til I die
Ever since that night
Pick you up on my receiver, giving up one true believer in whyWhatever helps you break that fall
Whatever makes you safe at all
I need healing
I need grace to get me feelingWhatever helps you break that fall
Whatever makes you safe at all
I need healing
I need grace to get me feeling
