Tentacles

THESET

Imagine when your lungs are filling up with liquid
Intoxicated poison flowin' through your veins
It seems like nothing's changed
My purple neck is stating all that I'm against but..
I guess that's how we end up
When we're under.. waterMayday! mayday! this ships going down
And as your captain I'm ready to drown..
I'm gonna drown so deep in you
I'm gonna drown so deep in youThis necklace that you've got wrapped around my neck.. Will choke me slowly to my death.. And I'm into thatThese weights are tied up to my legs
Sinking lifeless has never felt so peaceful
These waves are crashing all the same
Water washing through this sea of peopleThis necklace that you've got wrapped around my neck.. Will choke me slowly to my death.. And I'm into that
This necklace that you've got wrapped around my neck.. Will choke me slowly to my death.. And I'm into thatThe purple on your neck
stating all that i'm against
This ship is going down..
This ship is going down..Mayday! Mayday! this ship's going down
And as your captain I'm ready to drown
it's been a good run
but were fucked in this town
now ill close my eyes tight
till we sink to the groundThis necklace that you've got wrapped around my neck.. Will choke me slowly to my death.. And I'm into that
