

# Woke Up To the Light

## Strand of Oaks

I woke up to the light, you woke up to my hand  
Reachin' for the night we ran  
If the morning comes, I will still be here  
Holding all the lines of the fieldChorus:  
Save the dawn light shine  
Save the moon, save the night  
And I call you by name I call you here  
In the distance we will find,  
Heaven lies in waiting  
And keep the light on for me  
Keep the light on for meOOOHooHOOHHooHOOHHooHOOHohOH  
OOOHohOOHHHohOOHHWe woke up to the sun, the neighbors looking in  
We fit so well, so lonely, it's sad  
You're eyes looking back, we do not know our home  
Just long enough to hold me, and listenChorus:  
Save the dawn light shine  
Save the moon, save the night  
Then I call you by name I call you here  
In the distance we will find  
Heaven lies in waiting  
And keep the light on for me  
Keep the light on for meWe woke up to the light, and felt no warmth behind
