

# Innocent Love

Dr. David Klee

(Kemmler/Herter - Muller/Hirschburger)

    this information is for everyone  
    i've never had my chance for much too long  
        i'm sick of byin' lots of jewelry  
        no matter if it's Rome or Tennessee  
            cause i wanna get in touch  
            with the man i miss so much  
        an' you should guarantee day by day  
                innocent love  
                you need my innocent love  
                my innocent love tonight  
                    you can't get enough  
                you can stay by my side  
                an' give me everything  
                    innocent boy  
                you need me, innocent boy  
                my innocent boy tonight  
                    you can't get enough  
                you can stay by my side  
                an' show me everything  
                    innocent boy  
        this information's for the borin' man  
        he's not in love, he's playin' just a game  
            i won't give up myself in luxury  
            don't wanna let him drown my ecstasy  
                cause i wanna get in touch  
                with the man i miss so much  
        an' you should guarantee day by day  
                innocent love  
                you need my innocent love  
                my innocent love tonight  
                    you can't get enough  
                you can stay by my side  
                an' give me everything  
                    innocent boy  
                you need me, innocent boy  
                my innocent boy tonight  
                    you can't get enough  
                you can stay by my side  
                an' show me everything
