

Programmable Soda

[Tori Amos](#)

Think of me as programmable soda
Too much cherry
Baby then you can just add colaThink of me as programmable soda
'Cause you can, can be a cruel fella
So okay, then I just bag off the vanillaThink of me as programmable soda
'Cause I've come, I've come to accept that
For lovelies you are a fanatic
But I can't, I can't let that throw me into a genital panicThink of me as programmable soda
Too much cherry
Baby then you can just add colaThink of me as programmable soda
When you think and boy when you drink
When you think of me
