## **Programmable Soda**

## **Tori Amos**

Think of me as programmable soda

Too much cherry

Baby then you can just add colaThink of me as programmable soda

'Cause you can, can be a cruel fella

So okay, then I just bag off the vanillaThink of me as programmable soda

'Cause I've come, I've come to accept that

For lovelies you are a fanatic

But I can't, I can't let that throw me into a genital panicThink of me as programmable soda

Too much cherry

Baby then you can just add colaThink of me as programmable soda

When you think and boy when you drink

When you think of me
