Cruel (feat. ZAYN)

Snakehips

Cop radio screaming
Noise and tears
Death on the TV...
And then there's you
It's fucked, it's crazy
I can't concentrate
Just see your eye and...Back where we left off
Watch you take your dress off
I've been by myself remembering you
Your body hurts me
Loopin' 'round like CCTV
In all this bitterness you stay so sweet...It's such a cruel world
Savin' all my love for you, girl
It's such a cruel world
Maybe I found somethin' good, girlSome peeked at the party
All scraped and bruised
A dead eyed actress girl
And then there's you
Venus in Converse
You put a spell on me
And you're lockin' the bathroom door
For usBack where we left off
Watch you take your dress off
I've been by myself remembering you
Your body hurts me
Loopin' 'round like CCTV
In all this bitterness you stay so sweetIt's such a cruel world
Savin' all my love for you, girl
It's such a cruel world
Maybe I found somethin' good, girlWho do you love? Who do you love...?
Who do you love? Who do you love...?(Just see your eye and...)Back where we left off
Help you take your dress off
I've been by myself remembering you
Your body hurts me
Loopin' 'round like CCTV
In all this bitterness you stay so sweetIt's such a cruel world
Savin' all my love for you, girl
It's such a cruel world
Maybe I found somethin' good, girl...
