

# Detroit Waves

**Matt Nathanson**

Some would let it go to start again  
Knowing now how all our best intentions  
Never lit the world on fire And the lights illuminate the exit signs  
Over the wings the skies an open endless sea  
Crowding up, surrounding me And all of Detroit waves goodnight  
Spread out beneath me now  
If I could, if I could change  
Believe me I would, I would When you're warm enough to share your sheets  
Cold enough to make it seem  
Like I was only there  
Long enough to disappear Well, I'll still say your name to fall asleep  
Over and over a cynic saying rosary  
A liar living make believe And all of Detroit waves goodnight  
Spread out beneath me now  
If I could, if I could change  
Believe me I would, yes I would  
And Detroit waves And Detroit waves  
Comes around, around, around  
Comes around, around, around  
Comes around, around, around again And all of Detroit waves goodnight  
Spread out beneath me now  
If I could, if I could change  
Believe me I would, yes I would  
And Detroit waves, Detroit waves
