

Bonfire

Building 429

My mama always said I was born for this
And some people wouldn't like that I was different
It never really mattered how hard it would be
'Cause she filled me with love and the strength to lead
She said, oohaa
That kid's a flame
Said ooah
That kid's a flame
He's gonna burn something down if you get in his way
I came to, light it up
Light it up, light it up
If I was born to be a flame
Then I wanna light a bonfire
Light it up, light it up, light it up
If I was born to be a flame
Then I wanna light a bonfire
Let it burn, let it burn
Let it burn, let it burn
I'm gonna burn something down if you get in my way
This is the shout out, this is my voice
Calling all the men, women, girls and boys
The dropouts, the losers, the hurt and the broke
Time to reclaim what the darkness has stole
Marching to the beat of a different drum
We live for the love without counting the cost
If you wanna be free then it's time to go
Lift up your hands so the world will know
We came to light it up
Light it up, light it up
If we were born to be a flame
Then we're gonna light a bonfire
Light it up, light it up, light it up
If we were born to be a flame
Then we're gonna light a bonfire
Let it burn, let it burn
Let it burn, let it burn
We're gonna burn something down if you get in our way
We are not meant to be silent
We are alive just to shine
We are not meant to be quiet
We are the light of the world
We gotta light, light, light it up
Oohaa
That kid's a flame
Said ooah
That kid's a flame

He's gonna burn something down if you get in his way We came to light it up

Light it up, light it up

If we were born to be a flame

Then we're gonna light a bonfire

Light it up, light it up, light it up

If we were born to be a flame

Then we're gonna light a bonfire

Let it burn, let it burn

Let it burn, let it burn

We're gonna burn something down if you get in our way
