Streetheart

Meanwhile, back in Paris, I was embarrassed, babe
A westbound airline took her away, yeah
Was way past midnight, they caught the last flight, ohh
And now we're strangers, and I really don't know what to sayI'm afraid now, I'm gonna throw 'im the bait now
He may be the master, but he really gonna pay, yeahhhh!
Well, uh, took out my lady, they must be craaaaazy!!!
I'd toe the line now but, ah, but he really gonna pay - yeah, yeah!Forever forever and ever and ever and a day,
yeah
Forever forever and ever and ever and a day, ooh-oooWell, I'm gonna find him, then I'm gonna remind him
He may be the bloody master but not one of his fate...FATE...FATE!!!
He lied to the agent, he lied, he lied when he got his paycheque, his salary, yeah
When I find him, he really gonna pay
Uh, gonna give him, give him some of that
