

# The Meantime

## Phantom Planet

Hold on, hold on  
Your day's full, okay, that's fine  
I don't mind the meantime  
You've got your things to do  
Places you have to go, so and so  
I don't mind the meantime  
I've been thinkin' if I could count  
From then till now I'd count too high  
I can't help but think about the meantime  
Savin' time, spendin' it poorly  
I've been pretty foolish in  
The meantime  
If what comes next is so damn precious  
Why should I mind  
What you're doin' meanwhile  
Lately I've been lost in thought  
Around the clock hands are flyin' and  
I can tell you're runnin' out of meantime  
[Incomprehensible] Oh, now I know it's over too quick  
Got my finger on where it's all gone  
Don't look back 'cause I won't be there  
I don't have anymore to spare  
It's all mine, meantime  
Meantime, meantime
