

# Fault

## Then Jerico

Hee yee eea Why did I let you inside my life?  
How could I let you inside my body my soul my brain?  
Now I can't make you go away  
(Ooh)

You're driving me insane and inside out?  
I can tell it's meaningful and so hurtful  
There's no place just to hide I can tell you right now that  
This pain that I feel is not just inside of my mind  
I can tell you right now that  
Its physical and painful to be so vulnerable Oh this is my fault  
Oh this is my fault How could I lie to myself again?  
These bad decisions a never ending story  
I think I'd know by now just how to 'bout to smile  
You're driving me insane and inside out  
Because it's meaningful and so hurtful  
There's no place just to hide I can tell you right now that  
This pain that I feel is not just inside of my mind  
I can tell you right now that  
Its physical and painful to be so vulnerable  
I can tell you this pain is so unreal  
Can't help but feel left all alone  
I can tell you to listen to me  
When I say to you I know This is my fault  
Oh this is my fault I know this is my fault  
I know this is my fault  
I know this is my fault  
I know this is my fault I can tell you right now that  
This pain that I feel is not just inside of my mind  
I can tell you right now that  
Its physical and painful to be so vulnerable  
I can tell you this pain is so unreal  
Can't help but feel left all alone  
I can tell you to listen to me  
When I say to you I know This is my fault  
Oh this is my fault  
Oh this is my fault  
(This is my fault)  
Oh this is my fault  
Oh this is my fault
